

## *Because Every Student Deserves the Opportunity to Succeed*

The Campaign for Fair Education Funding is a statewide, broad-based, non-partisan campaign with the goal of ensuring that every student has access to a quality education regardless of where they live. To do this, Pennsylvania needs to adopt and maintain an adequate and equitable system for funding public education.

Every public school in Pennsylvania needs and deserves the resources necessary to enable every child to meet state academic standards, be prepared for post-secondary success, and become productive, knowledgeable, and engaged adults. Educating our children is a collective imperative that has positive social and economic benefits for Pennsylvania and its communities.

The campaign was launched in the fall of 2014 and has the support of more than 40 organizations representing educators, business, labor, faith-based organizations and civic and child advocacy groups who want to see the commonwealth develop a predictable, sustainable and long-term solution to funding our public schools. The list of supporting organizations continues to grow and can be found at [www.fairfundingPA.org](http://www.fairfundingPA.org).

The campaign is working to elevate public awareness of the policy discussion about public school funding and help find consensus among all interested parties on the best way to ensure every public school student has the resources needed to succeed. The campaign will neither endorse nor oppose individual candidates for office.
